

## Choosing Your *Donna J Skincare* Products

1. Do you use two separate products, one to remove makeup and then another to cleanse?

Our DISCOVER Cleansing Oil removes makeup and cleanses skin all in one step, saving you time and money\*.

2. Does your skin feel tight and “squeaky” clean after cleansing?

If so, you are using a water-based product that has a pH that is either too high or too low for your skin. This product is removing the protective barrier on your skin, and, with continued use, will cause permanent damage. Our DISCOVER Cleansing Oil is not water based and therefore doesn't damage skin, but it will cause healthy, vibrant, glowing skin, so there's that...\*

(To learn more about pH check out [this blog post](#))

\* Our MUSLIN is the perfect accessory to remove DISCOVER Cleansing Oil. Hand cut, 100% cotton muslin cloths, that are soft and washable, will remove all the makeup, toxins and bacteria on your skin, without stripping it of its natural oils. Use once and throw in the wash, you'll never again need to use a washcloth full of toxins and bacteria on your skin again.

3. Do you have fine lines, wrinkles or sagging?

You're going to want to try our RECOVER Anti-Aging Serum, the serum that started Donna J Skincare, the one that I used consistently, morning and evening, for three months when a friend asked if I had a facelift.

4. Do you have lines, wrinkles, sagging, dry, dull, lifeless looking skin?

When I created our gentle UNCOVER exfoliant and started using it consistently, twice a week, that's when I really started to have hope that my skin could be corrected. I started to see a glow I hadn't had in a while and after about one month, I started to see improvement in the lines, wrinkles and sagging. As I continued to exfoliant with this extremely gentle exfoliant, my skin continued to improve and now it glows.

5. Do you live in an urban or suburban area?

We are bombarded daily by toxins and pollution that can cause our skin to break down, resulting in lines, wrinkles and sagging. Our REJOICE Antioxidant Serum offers all the antioxidant protection and support your skin needs to defend itself against this harmful destruction.

6. Do you live in an area that, during the summer and winter, you get “a bit of sun”?

UV damage caused by the sun is the worst offender when it comes to aging, it almost immediately causes damage to our skin, which in turn causes lines, wrinkles and dark spots. When used regularly, our REJOICE Antioxidant serum supports the skins natural antioxidant process keeping skin from the damage that is caused by UV rays\*.

\*REJOICE Antioxidant Serum is NOT a replacement for sunscreen, it works best when used consistently during times of sun exposure.

7. Do you have dark spots, hyperpigmentation, age spots or liver spots?

Whatever you call them, these unsightly spots are not what we want to show the world. When used consistently, our EXHALE Dark Spot Serum will reduce the appearance of this damage leaving you with a much smoother looking skin tone.

8. Do you have crow's feet and/or crepey skin around your eyes?

Our VISUALIZE Eye Serum reduces the appearance of these fine lines before they become wrinkles and smooths out that crepey looking skin that ages us.
